

I love the fact that we can get K-Love station in our Local community. I know that K-Love provides educational, uplifting music and broadcasting and would not want to start my day without it. I have many friends and family that listen to K-Love everyday and I know the positive impact it has made on my family's life and those of my friends and family that listen to K-Love also. Please don't take away the bright spot in our day.

Thank You!!!!!!
